How to fill out 38-4306 — One and the Same Certificate

Arizona · written against 38-4306 (R07/25), issued under A.R.S. 28-2059

</forms/arizona/38-4306-one-and-the-same-certificate/>

Eight fields that say two names belong to the same person. Arizona needs it when the name on an ownership document and the name being signed look different enough to be two people - a married name against a maiden name, a company that trades under a shorter version of itself, a middle name that appears on one document and not the other.

This sheet is not the form. Download the blank 38-4306 from the Arizona Department of Transportation, Motor Vehicle Division at <https://apps.azdot.gov/files/mvd/mvd-forms-lib/38-4306.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Vehicle Identification Number, Year, Make	The vehicle whose paperwork carries the mismatch. Watch out: One certificate covers one vehicle. Two cars in the same wrong name means two forms.
2	YOU	Name On Document	The name as it is printed on the title or other ownership document, character for character. Watch out: Copy it, do not tidy it. If the title says TEAGUE-WHITLOW with a hyphen, that is what goes on this line.
3	YOU	Individual Name or Organization Name	The other version of the name - the one on the identification you will present. Watch out: It has to match the identification. A third variant that appears on neither document creates a second problem rather than solving the first.
4	YOU	Representative Name	Only where the second line is a company. Watch out: The person named here also has to show that they are authorised to act for the business, which usually means a letter on company paper or a matching business card.
5	YOU	Signature and Date	The person certifying that the two names are one person. Watch out: Sign it in front of whoever is taking the transaction, not at home. Nothing on this form is worth anything without the identification beside it.

What gets this one rejected

- Using it for a shortened signature. ADOT is explicit that a common form of proper names or a shortened version of a name for a signature is acceptable, including the seller's signature on the back of the Arizona title, and that a One and the Same Certificate will not be required.
- Using it to change a name. It says two names belong to one person; it does not update anything MVD holds.
- Naming two genuinely different people. It is a certification made under the same penalties as anything else filed with the Division.
- Leaving the representative line blank where an organisation is named. The form asks who is signing for the company.
- Filing it on its own. It is supporting documentation and it travels with the transaction it supports.
