How to fill out 46-4421 — Owner Affidavit

Arizona · written against 46-4421 (R05/25), issued under A.R.S. 28-2098

The narrow route for selling a car with no title to a scrap yard. Arizona allows a registered scrap metal dealer or a licensed automotive recycler to buy a vehicle without a certificate of title only where three things are all true: the transaction is worth \$1,200 or less, the vehicle is at least twelve model years old, and there is no lien on it. This affidavit is how the seller certifies all three, and it ends the vehicle permanently.

This sheet is not the form. Download the blank 46-4421 from the Arizona Department of Transportation, Motor Vehicle Division at <https://apps.azdot.gov/files/mvd/mvd-forms-lib/46-4421.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Vehicle Identification Number	One character per printed box, with the 5th, 10th and 17th positions marked. Watch out: If the VIN plate is unreadable, this form is not available - the buyer has to photograph the VIN or the federal identification sticker as part of the transaction.
2	YOU	Vehicle Year, Make, Model	The vehicle as it is. Watch out: The year is doing real work here. It is what the twelve-model-year certification a few lines down is measured against.
3	YOU	Name of Vehicle Owner and identification	Your name, and the number and type of identification you are showing. Watch out: A driver licence, a non-operating identification licence, or a tribal or United States military photo card. The buyer keeps a copy of it.
4	YOU	The value certification	That the vehicle does not exceed \$1,200.00 in value. Watch out: This is a ceiling, not a guide. A vehicle worth more than that cannot be sold this way even if both parties would like it to be.
5	YOU	The three title statements	Tick whichever is true: never obtained a title, the title was lost or stolen, or the title was returned to the Department. Watch out: Tick one only, and tick the true one. Returning the title to MVD is a different history from never having had one, and the statute treats them differently.
6	YOU	The two vehicle certifications	At least 12 model years old, and not subject to a security interest or lien. Watch out: Both boxes, or the affidavit does not work. A lien you think was cleared years ago should be checked on AZ MVD Now before you tick the second one.
7	YOU	Owner Signature and Date	The certification signature, on the ruled line. Watch out: This is the signature that ends the vehicle. Once the statement is filed, no Arizona title will ever be issued for that VIN again.
8	YOU	The odometer block	Reading, unit box, exception boxes, then your printed name and a second signature. Watch out: Two signatures on one form is not a mistake. The first certifies the vehicle's history; the second certifies its mileage, and they are separate legal statements.
9	YOU	Owner Initial and Business Initial	Both parties initial the acknowledgement. Watch out: The sentence above it names the penalty: knowingly falsifying anything on this statement is a Class 1 misdemeanor for both of you.
10	DEALER	The business block	Business name, address, NMVTIS number, agent's signature and date, completed by the recycler or scrap metal dealer. Watch out: Ask to see the NMVTIS number filled in before you leave. A buyer who cannot supply one is not the kind of business this route is open to.

What gets this one rejected

- A vehicle worth more than \$1,200. The statutory ceiling is a transactional value not exceeding \$1,200, and it is certified rather than estimated.
- A vehicle under twelve model years old. The second certification box is a flat test with no discretion in it.
- Any lien, including one you believe was paid. The certification is that the vehicle is not subject to a security interest or lien.
- A private buyer. Only a registered scrap metal dealer or a licensed automotive recycler can buy under this route.
- Cash. A.R.S. 28-2098(B)(2) requires the buyer to pay for the vehicle with a check and not with cash.
- A missing initial in the acknowledgement. Both the owner and the business initial it, and the acknowledgement is what carries the misdemeanour warning.
