The one ADOT built for private sales. It does two things at once: it appoints the buyer as your attorney-in-fact to sign the title papers, and it carries the federal odometer disclosure so the mileage is certified even though you never touched the certificate. The department's own note is that it is used for private party to private party sales, which none of the other powers of attorney are.

This sheet is not the form. Download the blank 48-7104 from the Arizona Department of Transportation, Motor Vehicle Division at <https://apps.azdot.gov/files/mvd/mvd-forms-lib/48-7104.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Vehicle Identification Number, Year, Make, Body Style	The vehicle, in the top band. Watch out: Take the VIN from the MVD record rather than from a document you may not have. If the title is electronic, AZ MVD Now is where it lives.
2	YOU	Attorney-In-Fact	The person or business you are authorising to sign the title papers for you. Watch out: On a private sale this is normally the buyer, which means you are handing them authority to endorse your name. Be as sure of them as that implies.
3	YOU	Odometer Reading (no tenths)	Whole miles, in the Odometer Reading band. Watch out: This is the figure that will be certified on your behalf. Once the attorney-in-fact uses it, correcting it means another one of these forms.
4	YOU	The miles and kilometers boxes	Tick one. Watch out: Neither ticked is not the same as miles. The department records the unit as declared, and it does not convert.
5	YOU	The two exception boxes	Only if the odometer has rolled over, or if the reading is not the actual mileage. Watch out: Leaving both alone certifies the reading as actual. That certification is yours, made by somebody else's hand.
6	YOU	Seller Name (printed) and Seller Signature	Print your name by hand, then sign beside it. Watch out: Hand-printed means hand-printed. A typed name in this field is one of the few things this form is refused for.
7	YOU	Seller street address, city, state and ZIP	Your address, under the signature. Watch out: Use the address MVD has on the vehicle record. A mismatch is not fatal, but it is one more thing for a clerk to ask about.
8	BUYER	The Notary band	Completed by a notary public or an MVD agent, with date, county, state and commission expiry. Watch out: An MVD or Authorized Third Party processor will witness it for nothing. That is cheaper and quicker than a notary, and the statute says so explicitly.
9	BUYER	Buyer Name (printed), Buyer Signature and address	The buyer acknowledges the mileage you certified, prints their name by hand and signs. Watch out: If the buyer is also the attorney-in-fact, they are signing here as the buyer only. They still cannot sign your half - the same person may not represent both sides of an odometer statement.

What gets this one rejected

- One person signing both halves. ADOT's rule is that the same person cannot represent the seller and the buyer on this form or on any other odometer statement.
- A typed seller name. The instruction printed beside the field is that the name must be printed by hand.
- An unwitnessed signature. The power of attorney has to be witnessed by an MVD agent or notarized by a notary, and an electronic notarial certificate is accepted.
- Any alteration to a signature. A power of attorney containing an altered signature will not be accepted, and no white-outs or cross-outs are allowed anywhere on it.
- Using it after the grantor has died. A power of attorney is valid until the powers have been revoked by the grantor or by the grantor's death.
- Using a general power of attorney instead for an odometer problem. The Division rules that out by name.
