How to fill out MV-46A — Affidavit Supporting Certificate of Title Bond Application

Georgia · written against MV-46A (Rev 12-2013), issued under the Motor Vehicle Division, as an attachment to a Motor Vehicle Certificate of Title Bond

The route to a Georgia title for a vehicle whose certificate cannot be produced at all - bought years ago and never titled, a seller who has died or vanished, a paper trail that stops. It is the sworn statement that supports a surety bond, and it is an attachment: the bond itself is a separate document executed by a surety.

This sheet is not the form. Download the blank MV-46A from the Georgia Department of Revenue, Motor Vehicle Division at <https://dor.georgia.gov/document/form/mv-46a-affidavit-supporting-certificate-title-bond-application/download?f=MV-46A.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Applicant	Your full legal name, Georgia driver's licence or identification number, street address with city, state and zip, and your county of residence. Watch out: County of residence decides which tag office the eventual application goes to, and the bond has to be in the same name as the applicant.
2	YOU	The person you got it from	The transferor's full legal name, licence or identification number and street address. Watch out: Write what you know and say so in the statement if that is little. An unknown transferor is not automatically fatal, but pretending to know is.
3	YOU	The statement	Three ruled lines explaining why the certificate cannot be provided. Watch out: It is verified against the vehicle history report, so keep it to what the report will support - dates, who had it, what happened to the paperwork.
4	YOU	The vehicle	Year and make, vehicle identification number, and model. Watch out: The VIN is what the history report is pulled on. If the plate on the car is unreadable, the inspection the bond needs is also the thing that establishes the number.
5	YOU	Any liens on the history report	Yes or no, with the release attached if yes. Watch out: An old lien that was paid but never released is the commonest yes here, and clearing it is a separate errand with the lender before this form is any use.
6	YOU	Abandoned vehicle process	Yes or no. Watch out: A yes ends it: the form says use of a surety bond is prohibited. Georgia handles abandoned vehicles through its own process and a bond is not a way round it.
7	YOU	Total loss or major component replacement	Yes or no to whether an insurer has ever settled it as a total loss, or the vehicle has been wrecked badly enough to need two or more major component parts replaced. Watch out: A yes means a salvage vehicle inspection has to be scheduled before anything else happens. Answering no to save time is a false statement in a sworn affidavit.

What gets this one rejected

- A vehicle that came through the abandoned vehicle process. The form says it in the question itself: if yes, use of a surety bond is prohibited.
- A vehicle that has been a total loss without an inspection first. If the answer to the third question is yes, the vehicle must first be scheduled for a salvage vehicle inspection.
- Filing it alone. It is an attachment to the motor vehicle certificate of title bond, and it has to be accompanied by a certification of inspection by a duly constituted Georgia law enforcement officer.
- A dealer trying to sell the car first. The line under the applicant block says a dealer must first acquire the bonded certificate of title prior to assignment or transfer of the vehicle.
- A statement that does not explain anything. The block asks for a full and complete statement of the reason the certificate cannot be provided, and warns that it will be verified against the vehicle history.
- Any alteration. The footer says the form must be complete and legible and that any alteration or correction voids it.
