How to fill out VSD 707 — Request for Transfer of Vehicle Registration License Plates

Illinois · written against VSD 707 (VSD 707.2, March 2026), issued under 625 ILCS 5/3-821

[sellmycarhub.com](https://sellmycarhub.com/forms/illinois/vsd-707-transfer-of-registration-plates/)
[/forms/illinois/vsd-707-transfer-of-registration-plates/](https://sellmycarhub.com/forms/illinois/vsd-707-transfer-of-registration-plates/)

The one way an Illinois plate legally leaves your hands and ends up on somebody else's car - and it is not a sale. The form releases a registration to another person, and it limits who that person can be to a list printed at the foot of the page.

This sheet is not the form. Download the blank VSD 707 from the Illinois Secretary of State at https://www.ilsos.gov/content/dam/publications/pdf_publications/vsd707.pdf — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	The relationship, inside the sentence	I/We acknowledge that such transfers are allowed only to immediate family members. The transferee is my/our _____. Watch out: Check the footnote against the answer before you write it. Son-in-law is in - the spouse of a child - but a grandparent is not, and neither is a nephew.
2	YOU	Plate Number and specialty category	The plate being released, and the specialty category if it has one. Watch out: Copy it exactly as it reads on the plate, including any space. This is the record being moved.
3	YOU	The vehicle the plates are on now	Make, model and year on one row, then the vehicle identification number. Watch out: The car you are selling, not the car the plates are going to. This block establishes what is being released.
4	BUYER	Person to whom the plates are to be transferred	Their name and a two-line address. Watch out: Their address, not yours. The registration will follow the person.
5	YOU	Transferor column	Printed name, signature and date. Watch out: If two names hold the registration, both release it - and VSD 393 statement 1 is what does that where this form has room for only one.
6	BUYER	Transferee column	Printed name, signature and date. Watch out: They sign too, on the same sheet, under the same affirmation. A form signed by only one side has half a statement on it.

What gets this one rejected

- A buyer. The footnote defines immediate family as the transferor's spouse, father, mother, children, brothers, sisters and grandchildren; the father, mother, brothers and sisters of the transferor's spouse; and the spouse of a child, brother or sister of the transferor. A purchaser is not on the list.
- Leaving the relationship blank empty. It sits inside the sentence rather than under a label and it is the first thing that gets missed.
- One signature. Both parties print, sign and date - and if the plate is registered in two names, everyone releasing an interest signs.
- A specialty plate without its category. There is a box for it and specialty plates carry eligibility rules the ordinary ones do not.
- Using it to move a plate between two vehicles you both own. That is a transfer on a VSD 190, not this.
