Iowa's duplicate title, and the form that stops a sale for a week. It goes to the county treasurer, it costs \$35, it takes five days unless you can hand over the original, and the print on its own face warns that the fee is not refundable. If your certificate is in a box you cannot find, this is the first thing to do and it is worth doing before you advertise rather than after somebody agrees a price.

This sheet is not the form. Download the blank 411033 from the Iowa Department of Transportation, Motor Vehicle Division at <https://iowadot.forms.govos.com/f/CO19101000127074031?f=411033.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	To the Treasurer of ____ County	The county that issued the title, not the county you live in now. Watch out: If the two are different, ring the issuing county before you fill anything in. This is the single commonest reason an Iowa replacement application comes back.
2	YOU	The Undersigned, and the address	Who is applying, and where they live now. City, state and zip have their own boxes. Watch out: A current address matters here more than usual: s. 321.42(2)(b) says the replacement is issued using the applicant's most recent bona fide address.
3	YOU	Title Issued to (Owner)	The name printed on the certificate that has gone missing. Watch out: If you have married, divorced or changed name since the title was issued, this line and the line above it will differ, and that is expected rather than a problem.
4	YOU	Certificate of Title Number and License Plate Number	Two boxes. The title number is on your registration receipt if the certificate has gone. Watch out: The registration receipt is the document most people still have when the title is the one that is lost. It carries the title number, the plate and the county.
5	YOU	Reason for Replacement	One line. The statute's three cases are lost, destroyed or altered. Watch out: Altered includes a title somebody has written on in the wrong place and crossed out. If that is what happened, this form is the answer rather than a correction affidavit.
6	YOU	Vehicle Identification Number, Year, Make, Model	Four boxes across one line. Watch out: Take the VIN from the registration receipt or the dashboard plate. It is what the county matches the record on.
7	YOU	The security interest block	A complete statement of every lien noted on the lost certificate, with the holder's name and address. Watch out: If a lien is showing and has not been released, you are not the right applicant - the lienholder is, unless they give you Form 411168.
8	YOU	Execute it and sign	Day, month and year, then the signature. Every owner named on the title signs, whatever connector is printed. Watch out: No notary on this one. Iowa notarises the correction affidavits and the death affidavits, not the replacement application.

What gets this one rejected

- An application to the wrong county. The replacement is applied for in the county that issued the title, and the county of issuance is printed on the certificate itself.
- One owner's signature where the title names two. Every owner has to sign a replacement application whichever connector is printed on the front - the and-or rule that governs a sale does not govern this form.
- An owner applying where a lien is still showing. If a security interest is noted and not released, the lienholder applies, unless they send a separate release on Form 411168.
- Expecting the fee back if the original turns up. The form prints the answer beside the security interest block: pursuant to Iowa Code section 321.42, the Department or county treasurer is not authorized to refund fees collected for a replacement title.
- Selling on the strength of a replacement that has not arrived yet. There is a five-day statutory wait before the copy issues, and it only disappears if you surrender the original.
