Attesting Official or Notary Signature and Title

Two affidavits printed on one sheet, and a private seller normally only needs the top half. Since January 2024 the plate stays with the seller when a Kentucky vehicle changes hands - so the plate matters again, and the day it goes missing, gets left on a sold car, or turns out to have been stolen, this is the affidavit that replaces it. The bottom half is the non-exchange affidavit, which is a dealership's or a lender's account of why a plate did not come back with a title action.

This sheet is not the form. Download the blank TC 96-167 from the Kentucky Transportation Cabinet, Division of Motor Vehicle Licensing at <https://transportation.ky.gov/Organizational-Resources/Forms/TC%2096-167.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	The county, at the top of the upper half	The county the affidavit is being filed in - your county of residence. Watch out: The lower half has a county rule of its own. Fill in the one belonging to the affidavit you are actually using.
2	YOU	What is being replaced	Certificate of Registration, Registration Plate or Decal, from the left-hand column. Watch out: The plate and the decal are separate items and separate replacements. Losing a plate with a current decal on it means both.
3	YOU	Why	Lost, County Change, Stolen, Destroyed, Rusted, or Other with a description. Watch out: Choose the one that is true. Stolen creates a record with a date on it; Lost does not, and the two are not interchangeable just because the outcome is the same.
4	YOU	The number, and the owner block	The plate, decal or certificate number, then owner names with a Social Security or licence number each, and the address. Watch out: If the plate number has gone with the plate, your old registration receipt or a title history request will recover it.
5	YOU	Sign and date	One line per owner named on the registration. Watch out: Leave the whole lower half alone. Repo, junked vehicle and salvage title belong to a different transaction and a different signer.
6	YOU	The single notary block at the foot	Subscribed and attested before me on this date, with the commission number and expiry. Watch out: It is headed for replacement or non-exchange because one block serves both halves - which is also why filling in both halves produces a mess nobody can swear to.

What gets this one rejected

- Using it for a duplicate title. The line under the heading says in as many words that a duplicate title application is a different form.
- Both halves completed. The single notary block serves whichever affidavit you actually used; filling in both makes two inconsistent statements.
- A reason box left unticked. The replacement affidavit is a statement about what happened to the plate, and Lost is not the same claim as Stolen.
- Other ticked with nothing on the Describe line. The line exists because the six printed reasons do not cover everything.
- One signature where the registration names two owners. Both columns have their own signature and date lines.
- An unsworn affidavit. The notary block at the foot covers whichever half you filled in, and neither works without it.

☒ Amber is what you write

☐ Grey is a block somebody else completes

The filled-in example is at the start of this sheet.
