How to fill out TC 96-5 — Odometer Disclosure Statement

Kentucky · written against TC 96-5 (Rev 05/2020), issued under 49 U.S.C. 32705 and KRS 190.300

The mileage lifted off the certificate and put on a sheet of its own, for the times the certificate's own block will not serve - a reading already written and corrected, a title with the transfer section used up, an out-of-state document that words the certification differently. Kentucky asks for something no neighbouring state asks for on this document: Section 3 is a certification block, and the seller's statement here is sworn in front of an attesting official.

This sheet is not the form. Download the blank TC 96-5 from the Kentucky Transportation Cabinet, Division of Motor Vehicle Licensing at <https://transportation.ky.gov/Organizational-Resources/Forms/TC%2096-5.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Section 1, the vehicle	Year, make, model, vehicle identification number and body type, copied from the certificate. Watch out: Body type here is the description the certificate uses, not the one the manufacturer's brochure used. Wagon, sedan, pickup - match the document.
2	YOU	Section 2, your name printed	Print your name and phone number and give your address, then print the name again into the opening rule of the certification sentence. Watch out: Print in Section 2 and sign only on the signature line. The two are asked for separately for a reason.
3	YOU	The odometer now reads	The current reading in whole miles, into the rule marked no tenths. Watch out: Take it off the dash on the day of the handover. The number here and the number in the assignment on the title have to be the same number.
4	YOU	Sign and date	Your signature and the date, on the line above Section 3. Watch out: The date should match the date of transfer you wrote on the certificate. A different date on two documents about one sale is a question waiting to be asked.
5	YOU	Section 3, the attesting official	Subscribed and attested before me, then the official's signature and title, commission number and expiry. Watch out: This is the part that makes Kentucky's version different. A county clerk's counter staff will do it while you wait, and it costs the price of a notarisation.
6	BUYER	Section 4, the buyer's half	Their name, phone, address, signature and date, acknowledging the reading you have just certified. Watch out: Hand them the pen at the kerb and photograph the finished sheet before it leaves your hands. Federal law entitles them to a copy of it.

What gets this one rejected

- A reading with a decimal in it. The rule under the figure says no tenths, and a fraction is not something a clerk can key.
- Both exception statements ticked. They are alternatives - a reading has either run past the odometer's mechanical limits or is not the actual mileage.
- A figure that disagrees with the one on the back of the certificate. Two documents about one handover carrying two numbers is exactly the discrepancy this form exists to expose.
- Section 3 left blank. Kentucky wants this statement sworn, and an unsworn one is a piece of paper rather than a disclosure.
- The buyer's half missing. Federal law makes the acknowledgement the buyer's, and Section 4 has its own signature line for it.
- Filing it for a vehicle that has nothing to disclose. A pre-2011 model year old enough to be exempt does not need one, and volunteering it invites a question.
