How to fill out DPSMV 1799 — Vehicle Application

Louisiana · written against DPSMV 1799 (R05/24), issued under R.S. 32:707, application for certificates of title

sellmycarhub.com
[/forms/louisiana/dpsmv-1799-vehicle-application/](https://forms/louisiana/dpsmv-1799-vehicle-application/)

The sheet every Louisiana title is generated from, and the one document that turns up in every transaction the OMV has a policy for. Two sides doing about nine jobs: it describes the vehicle, names the new owner, records the lienholders, declares the price, works out the fees, and carries two sworn affidavits down its right-hand edge that have nothing to do with an ordinary sale. A private seller signs it nowhere. It belongs to the person buying the car.

This sheet is not the form. Download the blank DPSMV 1799 from the Louisiana Office of Motor Vehicles at <https://public.powerdms.com/LADPSC/documents/355820?f=DPSMV-1799.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	BUYER	VIN	First box of the identification row, copied off the face of the certificate being surrendered. Watch out: Copy it from the title rather than from the windscreen plate, and remember a VIN never contains the letters I, O or Q. Every other document in the file gets matched to these characters.
2	BUYER	Mileage	Middle of the description row, between Year and Model/Weight. Watch out: It has to agree with the figure certified in the odometer block on the back of the title. This box is a description of the vehicle, not a disclosure - the disclosure with legal weight is the one the seller signed.
3	BUYER	Name of Owner	The buyer's full legal name as it reads on their driver's licence or ID card, with the licence number or an EIN in the box to the right. Watch out: Initials, nicknames and pet names cannot be used for first names, and no rank or title goes in front. Where the name does not match the other documents in the file exactly, the OMV wants an Affidavit of One and the Same instead of a shrug.
4	BUYER	Parish	Between City and State/Zip in the owner's address block, and again in the mail-to block below it. Watch out: This is the box the sales tax rate is read from. A Baton Rouge address that is actually in East Baton Rouge parish and a Baton Rouge address that is in West Baton Rouge are taxed differently, so it is filled in from the licence rather than guessed.
5	BUYER	New / Used	Two small ticks at the left end of the transaction row, immediately before Date Acquired. Watch out: Used is what a private sale is, always - the New box is for a vehicle arriving on a manufacturer's statement of origin. Ticking neither leaves the file ambiguous about which set of supporting documents the office should be looking for.
6	BUYER	Cost of Vehicle	Right-hand end of the transaction row, with Less Trade beside it. Watch out: It has to be the same figure that appears in the title assignment, and the same figure again on any bill of sale in the envelope. This is what the tax is assessed on and it is also what the two-year plate fee is calculated from.
7	OTHER	The fee column	Twenty boxes running down the left of the lower half, from Title Fee to Grand Total. Watch out: Leave every one of them empty. These are worked out and entered by the OMV employee or the Public Tag Agent processing the file, and a buyer's arithmetic in them is one more thing for somebody to reconcile.
8	OTHER	Duplicate Title Affidavit	The boxed block at the top right, with ticks for lost, mutilated and never received. Watch out: Not part of a sale. It is here because the same sheet doubles as the application for a duplicate certificate, and it is signed by the registered owner in front of a notary whose identification number goes in the box marked ID Number.

What gets this one rejected

- Parish left blank or filled in with the city's name. The tax rate follows the parish the vehicle is domiciled in, and the OMV cannot work the file without it.
- A Cost of Vehicle that does not agree with the price written into the title assignment or the notarised bill of sale. Two figures in one envelope is a discrepancy, not a choice.
- Neither New nor Used ticked, which leaves the office guessing whether it is looking at a manufacturer's statement of origin or a used certificate.
- A duplicate title affidavit filled in and signed but not notarised, or notarised with no identification number written next to the notary's name.
- Both an owner's licence copy and the signature missing where a plate is being asked for. A title can still be issued, but the plate will not be until identification is shown.
- No proof of liability insurance where a plate is wanted. The form prints its own warning across the foot: proof of liability insurance must be furnished as provided for by law before this file can be processed.
