How to fill out DPSMV 1958 — Title History Request Form

Louisiana · written against DPSMV 1958 (no revision printed), issued under R.S. 32:709, indices and files kept by the commissioner

</forms/louisiana/dpsmv-1958-title-history-request-form/>

How to find out what the department actually holds on a vehicle. A seller reaches for it when the buyer has gone quiet and the car is still showing in their name, when a lien that was paid off years ago is still on the record, or when a certificate has been assigned twice and nobody can say what the last transaction was. It buys copies of the documents in the title file rather than a summary, which is the difference between knowing what happened and being told.

This sheet is not the form. Download the blank DPSMV 1958 from the Louisiana Office of Motor Vehicles at <https://public.powerdms.com/LADPSC/documents/352584?f=DPSMV-1958.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Requestor's Name	First box of the requestor block, marked with an asterisk. Watch out: Your own name, not the current owner's. You are asking for records about a vehicle rather than about a person, and the reason box below is where you explain your connection to it.
2	YOU	Reason for Request	The deep box under the requestor's name and email, also asterisked. Watch out: Write the actual situation in plain words - sold on this date, buyer has not titled it, still showing on my record. A blank or a single word here is the most common reason one of these comes back.
3	YOU	Vehicle Identification Number (VIN)	First box of the vehicle row, and the only part of that row that is required. Watch out: Year, make and model are optional but worth filling in anyway. A VIN with one character wrong plus a correct year and make is a record the department can still find; a wrong VIN on its own is not.
4	YOU	Last title transaction	First of four ticks under Item(s) Requested. Watch out: This is the answer to did the buyer ever title it. All available documents is for a dispute or an inherited vehicle with a tangled history, and it costs the same flat fee but a great deal more in certification if you also ask for that.
5	YOU	Not Certified	One of two ticks under Type Requested. Watch out: Certified copies cost \$2.00 per page on top of the request fee. Unless something is going in front of a court or another state's agency, uncertified tells you exactly the same thing.
6	YOU	Return documents by email to the requestor	First of two ticks under Requested Return, with a name and address block underneath for the other option. Watch out: Tick one, not both. If you choose email, leave the mail-to block empty; if you choose post, fill it in completely, because a partial address there reads as a contradiction rather than as a preference.

What gets this one rejected

- Reason for Request left blank. It carries an asterisk and it is the box the department reads before deciding whether to release anything.
- No email address on a form asking for return by email, or no postal address on a form asking for return by post.
- More than one box ticked in a section that says select one.
- Certified copies requested with only the flat fee enclosed. Certification is charged per page on top, and the department invites a request for an assessment in advance rather than guessing.
- Cash in the envelope. The form names four acceptable methods and cash is not one of them.

☐ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
