How to fill out TR-207 — Trailer, Watercraft or Snowmobile Bill of Sale

Michigan · written against TR-207 (Rev 06/26), issued under Public Act 300 of 1949, as amended

[snowmobile-bill-of-sale/](https://sellmycarhub.com/forms/michigan/tr-207-trailer-watercraft-snowmobile-bill-of-sale/)

The only bill of sale the Michigan Department of State publishes, and it is not for a car. Three tick boxes across the top of it decide what it can be used for - a non-titled trailer, a non-titled watercraft, or a snowmobile - and a motor vehicle is none of them. It has a page here because half the people searching for a Michigan bill of sale end up on it.

This sheet is not the form. Download the blank TR-207 from the Michigan Department of State at <https://www.michigan.gov/sos/-/media/Project/Websites/sos/Resources/Forms-and-publications/Registrations-and-titles/TR-207.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	I, [printed name], sold the following	Your name across the head of the form, before anything else. Watch out: Printed, not signed. Your signature belongs further down, on the selling price row.
2	YOU	Check one	Non-titled trailer, non-titled watercraft, or snowmobile. Watch out: If none of the three describes what you are selling, this is not your form. There is no fourth box and no other bill of sale in the Michigan set.
3	YOU	Serial number	The serial number of the item, beside its year and make. Watch out: Not a VIN. These are things Michigan registers without titling, and the serial number stamped on the frame or hull is what identifies them.
4	YOU	Registration number	The current registration number, with the date of sale in the box to its left. Watch out: Year of last decal, in the box below, is a snowmobile question - Michigan snowmobile registrations run on a dated decal rather than a plate.
5	BUYER	Buyer's information	The buyer's name, street address, city, state and ZIP code. Watch out: Take it off their licence rather than from memory. This document is the buyer's proof of ownership until the department reissues the registration.
6	YOU	Selling price and signature of seller	The price in one box, your signature on the rule beside it, then your own address underneath. Watch out: Both halves of the row. A price with no signature beside it is a note, not a bill of sale.
7	YOU	The weighmaster block	Empty scale weight, business name, signature of weighmaster and business address, at the foot of the form. Watch out: Only a trailer or trailer coach needs it, and only if the previous registration showing the weight is not attached. Left empty on everything else.

What gets this one rejected

- Using it for a car. It is not a form for a motor vehicle and it does not become one - the assignment on the front of the certificate is what sells a Michigan car.
- Ticking non-titled watercraft for a boat that has a title. Michigan titles watercraft over a certain size, and a titled boat transfers on its certificate like a car does.
- Leaving the registration number blank. Without it there is nothing to tie the document to a record the department holds.
- Filling in the weighmaster block for a snowmobile. It exists to certify a trailer's empty scale weight, and a snowmobile has no registered weight to certify.

☒ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
