How to fill out PS2067A — Application for Duplicate Title, Registration, Cab or Lien Card

Minnesota · written against PS2067A (06/24), issued under Minnesota Statutes 168A.09

The form for a Minnesota title that has gone missing, and the first thing anybody selling a car they cannot find the paperwork for has to fill in. DVS requires the assignment of ownership to take place on the most current title issued, so a lost certificate is not a detour - it is the whole job, and most deputy registrars can print the replacement over the counter while you wait.

This sheet is not the form. Download the blank PS2067A from the Minnesota Driver and Vehicle Services at https://assets.dps.mn.gov/files/dvs/MV_DuplicateTitle_Reg_Cab_LienCard_Application.pdf — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Title number of missing document	The number of the certificate you cannot find, in the first box of the top row. Watch out: It is on your registration renewal notice and on the vehicle record. If you genuinely do not have it, take the vehicle identification number to a deputy registrar rather than inventing a number.
2	YOU	Plate, make and model year	The rest of the top row - Minnesota plate number, make, model year. Watch out: In Minnesota the plate is still on the car you own, so this is simply what is bolted to the back of it.
3	YOU	Vehicle identification number	The wide line under the vehicle row. Watch out: Take it from the registration card or the doorpost rather than from memory. This is what the record is found by when the title number is wrong.
4	YOU	Applicant's full name	Last, first and middle name, driver's licence number and date of birth for the first owner, and the same again for an additional owner if the title names one. Watch out: The names have to be the ones on the title. A married name that never reached the vehicle record is a separate problem to fix first.
5	YOU	Address of first owner	Street address, city, county, state and zip - the permanent address, in the form's own word. Watch out: The duplicate is posted here unless the temporary address block is filled in, and a title posted to an address you left two years ago is the next duplicate application.
6	YOU	Tick Title	One of the four document boxes: Title, Reg. Card, Cab Card, Lien Card. Watch out: The technology surcharge footnote applies only to a duplicate title, which is a small clue as to why the four are separated - they are four different transactions on one sheet.
7	YOU	Tick why it needs replacing	Stolen, Destroyed, Lost, Mutilated, Illegible, Not Received, or Given to Buyer. Watch out: Mutilated and Illegible both require the document itself to be attached. Not Received is for a title the post lost between DVS and you, and it is worth choosing accurately.
8	YOU	Applicant is the Owner	The tick at the foot, then the signature on the rule beside it and the date. Watch out: If the applicant is a secured party instead, the title of the agent goes on the line underneath - and a person acting for an owner needs a power of attorney, which Minnesota does not publish a form for.

What gets this one rejected

- A buyer applying. The important notice on the form is that DVS will issue a duplicate certificate of title only to the owner or legal representative of the owner named on the original certificate, and a legal representative needs a power of attorney.
- Applying after signing. The certification says the original document has not been assigned and/or surrendered to anyone - a title you have already signed over is not a title you can replace.
- Ticking Mutilated or Illegible without attaching the document. Both boxes say to attach it, and both are refused without it.
- Ordering plates as well. The instruction runs across the top of the form: duplicate plates and stickers are not required when applying for a duplicate title.
- Guessing at the title number. It is the number of the missing document, and where it is unknown a deputy registrar can look the vehicle up rather than have a wrong one keyed.
- Forgetting that the replacement cancels the original. If the original certificate of title is recovered, it must be returned to DVS - two live titles for one car is the thing this form is designed not to create.

☐ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
