Minnesota · written against PS2067B (7/26), issued under Minnesota Statutes 168.29

The form for a plate or a tab that has gone missing, and one a seller should think about before a handover rather than after it. Because Minnesota plates stay with the car, a vehicle with a bent, stolen or unreadable plate is a vehicle the buyer inherits a problem with - and the registration stickers on it are the ones they will be driving on until the month runs out.

This sheet is not the form. Download the blank PS2067B from the Minnesota Driver and Vehicle Services at <https://assets.dps.mn.gov/files/dvs/mv-ps2067b-duplicate-plate-stickers-application.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Vehicle identification number and current plate	The identification number on its own line, then the current plate number, model year, make and type. Watch out: The current plate number is the one being replaced. On a plate too damaged to read, take it from the registration card instead.
2	YOU	Current expiration date	The month and year boxes in the top right corner. Watch out: This is what the replacement stickers are issued against, and the notice at the foot requires them to match what was originally on the vehicle.
3	YOU	Owner's name, licence number and address	Last, first and middle name, driver's licence number, then the permanent address including the county. Watch out: County is asked for and easily missed. It is what any wheelage tax on the registration is charged by.
4	YOU	What you need	Plates, weight stickers, year sticker - check all that apply. Watch out: Weight stickers exist on trucks and trailers registered by gross weight. An ordinary passenger car has a plate and a year sticker and nothing else.
5	YOU	Why	Stolen, destroyed, lost, surrendered, defective, never received, issued in error - again, all that apply. Watch out: Never received drags the postal service question with it; surrendered means specifically given up for lack of insurance. The other five mean what they say.
6	YOU	The registration card	Attach it, or tick one of the four reasons in instruction 2 for why you cannot. Watch out: One of those four reasons is that you are driving outside Minnesota and need the card as proof of registration, which is the department quietly acknowledging how far people drive.
7	YOU	Sign and date it	The signature rule under the certification that the vehicle is and will continue to be insured while operating upon the public streets and highways. Watch out: The registered owner signs. On a vehicle you are about to sell that is still you, and it stays you until the buyer files the transfer.

What gets this one rejected

- Ticking Never received without answering the postal question. The instruction is attached to that box specifically, and it wants a yes or no and a date.
- Ticking Surrendered when nothing was surrendered. The form limits that word to plates or stickers given up for lack of insurance coverage.
- Keeping the remaining plate. The notice says any remaining plates and stickers must be surrendered to the registrar for cancellation - a replacement set means the old set is dead.
- Applying for a duplicate title at the same time on this sheet. It is a different form, and the head of this one says a duplicate title is not required when applying for duplicate plates or stickers.
- Stickers that do not match. The month and year being replaced have to be the ones originally issued for that vehicle, not the ones you would prefer.
- Filling in the second side. Instruction 1 says complete this application on this side only.

☒ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
