How to fill out Form 3019 — Odometer Disclosure Statement

sellmycarhub.com

Missouri · written against Form 3019 (Rev 01-2021), issued under RSMo 407.536 and 49 CFR Part 580

</forms/missouri/3019-odometer-disclosure-statement/>

A separate mileage certification, printed four times over on one sheet so a vehicle can pass through several hands on the same document. It exists for the transfers where the title itself cannot carry the disclosure - and the form's own instructions rule most Missouri sellers out of needing it, which is the most useful thing on the page.

This sheet is not the form. Download the blank Form 3019 from the Missouri Department of Revenue at <https://dor.mo.gov/forms/3019.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	The vehicle, once, at the top	Year, make, vehicle identification number, title number, state, model and body style. Watch out: This band serves all four disclosure spaces on the sheet, which is why it is outside them. Copy it from the title rather than from the car.
2	YOU	Purchaser's name and the date	The buyer's name printed or typed, and the date of the transfer beside it. Watch out: The date is the day the car changed hands, and it needs to be the same day you wrote on the title assignment and on the notice of sale.
3	YOU	Your name, and the dealer number you skip	Seller(s) (firm) name printed or typed, with your address underneath. The DEALER NO. box beside it belongs to licensed dealers. Watch out: A private seller leaves the dealer number empty. Writing anything in it invites the license office to treat the transfer as a dealer sale, which changes the tax treatment.
4	YOU	The odometer reading	The mileage in whole miles, in the block labelled no tenths. Watch out: Read it off the dash on the day, not from a service invoice. The certification beside it is a statement about now.
5	YOU	The two statements	Mileage in excess of its mechanical limits, or Mileage reading not actual. Tick one only if it is true. Watch out: The Department's own worked example for the first: an actual mileage of 125,000 where only 25,000 shows, so you write 25,000 and tick the box. The second one puts a permanent brand on every title the car is ever issued.
6	YOU	Both signatures	Signature of purchaser and signature of seller, side by side, in the first disclosure space. Watch out: In pen. The instruction is that everything on this form can be typed or computer generated except the printed names and signatures.
7	BUYER	Both hand printed names	A second pair of rules beneath the signatures. Watch out: One purchaser and one seller must hand print their name. The Department asks for the printed name on this form for the same reason it asks on the title - a signature is not a name it can read.

What gets this one rejected

- Using it when the title should carry the disclosure. The instructions on the reverse are explicit: if the Missouri title was issued after August 28, 1989, the odometer disclosure is required to be completed on the back of the title rather than on a separate disclosure statement.
- Typing the names and signatures. All information on the disclosure statement can be typed or computer generated except for the printed names and signatures of the purchaser(s) and seller(s).
- Tenths of a mile. The block is labelled odometer reading (no tenths), and a decimal is not the figure a license office will key.
- Ticking Mileage reading not actual and stopping there. The seller must also submit a statement explaining all facts concerning the true mileage - which is what Form 1545 is for.
- Scribbling out a spoiled disclosure. The Department's correction procedure is to draw a large X through that disclosure space, use the next one, and attach a signed statement explaining the error.
- A reading that disagrees with the one on the title assignment. The license office reads them side by side.

☐ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
