How to fill out Form 426 — Request for Refund of Taxes or Fees Paid on Vehicle or Marine

Missouri · written against Form 426 (Rev 03-2026), issued under RSMo 144.071 and 301.140

The form that turns a sale into money back. Missouri gives a seller who buys a replacement vehicle within 180 days either side of the sale a credit against the tax on the new one, and this is how it is claimed when the credit was not applied at the counter. The same form covers a refund on unused plates and tabs, a penalty charged in error, and a sale that was rescinded.

This sheet is not the form. Download the blank Form 426 from the Missouri Department of Revenue at <https://dor.mo.gov/forms/426.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Claimant details	Name, telephone, mailing address, e-mail, the amount requested and how you would rather be contacted. Watch out: The amount is marked optional on the form. Fill it in anyway - a claim with a figure on it is a claim somebody can check, and the two contact boxes decide whether a query reaches you by phone or by e-mail.
2	YOU	Pick the reason	One of eleven tick boxes, each with its own one-line description beside it. Watch out: For a seller the usual one is the first: purchased, or contracted to purchase, a unit and sold a different unit within 180 days before or after the purchase.
3	YOU	Read that reason's own section	The required-documents pages behind the form list the attachments for each of the eleven reasons separately. Watch out: They are not the same list. A total loss claim needs a notarised or certified affidavit from the insurer; a 180-day claim needs your bill of sale or notice of sale.
4	YOU	Attach the title receipt	A legible copy of the Missouri title receipt for the unit that was purchased, showing taxes and fees paid. Watch out: That is the receipt the license office gave the buyer of the new car - which is you. It is the document every one of the eleven sections asks for.
5	YOU	Attach the proof of the sale	A completed and signed bill of sale or notice of sale for the unit you sold. Watch out: This is the moment the copy you kept in August earns its keep. The Department is matching one disposal to one purchase, and it wants both dates.
6	YOU	Sign it	One of the two signature rows, with your printed name and the date. Watch out: At least one owner of the purchased vehicle has to sign - the new car, not the old one. That catches people who bought the replacement in a spouse's name.

What gets this one rejected

- A claim with no title receipt attached. Every one of the eleven sections names a legible copy of the Missouri title receipt showing taxes and fees paid.
- A 180-day claim with no proof of the sale. The section names the two documents that will do: a properly completed and signed Bill of Sale (Form 1957) or Notice of Sale (Form 5049) for the unit that was sold.
- Two purchases and one form. The claim is measured between one unit sold and one unit purchased, and the dates have to fall within the window.
- A signature from somebody who is not an owner of the purchased vehicle. The instruction above the signature rows says so directly.
- A rescinded-sale claim outside its own window. That section describes returning a unit to the seller or the dealer within 60 days from the date of purchase.
- Missing an attachment named in the section you ticked. Printed above the required documents: applicants must submit all items listed in the applicable section to avoid the refund from being rejected.
