

South Carolina Department of Motor Vehicles POWER OF ATTORNEY AUTHORIZATION FORM

MC-25
(08/2022)

INFORMATION SHEET

The Power of Attorney cannot be used to establish a new IFTA or IRP account.

A Power of Attorney is required when someone other than the IRP or IFTA account holder is given permission to conduct business on the behalf of the account holder on an established IRP or IFTA account. The Power of Attorney is a vital tool in protecting the account holder from someone conducting business in the account unknowingly. It is the responsibility of the customer to keep the Power of Attorney current. Should there be changes to your selection you must file a new MC-25 POA with Motor Carrier Services.

Motor Carrier Services will only accept the SCDMV Power of Attorney form, (SCDMV form number MC-25).

You must indicate the name of the company and individual on the line requesting Company Name and Individual Name that you are giving your permission to for conducting business on your behalf. For example, if a spouse is sent to conduct business and the spouse is not on your account, a Power of Attorney is required. If you obtain a permitting agency to conduct business for you, a Power of Attorney between you and the permitting agency is required. If an individual from your trucking company is to conduct business in the account, indicate the individual's name on the line.

South Carolina Department of Motor Vehicles POWER OF ATTORNEY AUTHORIZATION FORM

MC-25
(08/2022)

The Power of Attorney (MC-25) cannot be used to establish a **NEW** IFTA or IRP account. Licensees are required to file IRP/IFTA applications/returns and pay taxes as owed. They are also required to accept and respond to various types of official communications with the South Carolina Department of Motor Vehicles.

If a licensee prefers an appointed individual or Service Provider to fulfill these responsibilities, this form is to be completed. This is a privilege extended to the licensee which requires special handling by the Department, therefore, such action will not be considered unless this form is properly completed and placed on file with the Department. The completion of this form does not relieve the licensee of the legal obligations associated with a particular license. The licensee is ultimately responsible for the payment of taxes as well as all acts and omissions of the stated individual or Service Provider. The Power of Attorney will continue to be honored until written notification is received to change the selection of Power of Attorney.

This is not the form you are looking for, and it is here because it is the one a search finds. It is the SCDMV's only downloadable power of attorney and it belongs entirely to Motor Carrier Services: it authorises somebody to run an established IRP or IFTA trucking account. It cannot be used to sign a certificate of title, and it says on its own face that it cannot even open the account it governs.

This sheet is not the form. Download the blank MC-25 from the South Carolina Department of Motor Vehicles at <https://dmv.sc.gov/sites/scdmv/files/2026-04/MC-25%20Power%20of%20Attorney%20Authorization%20Form.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Read the scope before anything else	The paragraph fixing the appointment to IFTA fuel taxes, licensing, decal orders, fuel tax reports and IRP licensing. Watch out: If your question is about a car, stop here. This form has no application to a certificate of title and attaching it to one will not make it fit.
2	YOU	Company name and individual's name	The attorney-in-fact, named as both a company and a person, with a mailing address and phone number. Watch out: Motor Carrier Services will only accept its own form, so a solicitor's general power of attorney does not substitute for this on a trucking account.
3	YOU	IN WITNESS WHEREOF, I ____	The licensee's own name written into the sentence, then the day, month and year. Watch out: The licensee is the account holder, which for a one-truck operation is usually the same person signing below - but the form asks for both because often it is not.
4	YOU	Signature, title and customer number	The owner or legal representative signs, gives a title, and writes the IRP or IFTA customer number. Watch out: Without the customer number the form cannot be matched to an account, and an account is the only thing it can be matched to.
5	OTHER	The acknowledgement	A notary completes the state, county, date, personally appeared line, signature and commission expiry. Watch out: An out-of-state power of attorney has to carry that state's own notarial authentication, and the form says plainly that one without will be returned without action.
6	YOU	What to use instead, for a car	An ordinary power of attorney naming the individual, the attorney-in-fact, and the vehicle by VIN, year, make and model, signed by the individual and by a witness. Watch out: The SCDMV publishes no form for it and does not need to - its stated rule is that there is no standard format, and copies are acceptable.

What gets this one rejected

- Attached to a title application. That application accepts a power of attorney, but not this one - its printed scope covers IFTA and IRP matters and nothing else.
- Used to sign an assignment on a certificate of title. Nothing in its scope reaches a title, and the SCDMV's own rules for signing a title on somebody's behalf describe a different document entirely.
- Filed to open an account. The prohibition is printed twice on the document.
- Sent unnotarised. Unlike everything else in a South Carolina vehicle transaction, this one does carry an acknowledgement block, and it is expected to be completed.
- An out-of-state power of attorney with no seal. The paragraph at the foot says such forms will be returned without action.
- Left in place after the arrangement changes. It continues to be honoured until written notification is received, which means an obsolete one is still live.
