Part 2 - Assignment and Release of Interest

Section 1 - Odometer Disclosure and Reassignment of Title

Missing, altered, or incorrect information may result in rejected application.

Utah Code Title 41 requires the seller of a motor vehicle to inform the buyer about the vehicle's mileage, and to provide written disclosure of that mileage on the title or other authorized transfer document.

Odometer (no tenths): **138,472** Reading is: ☒ Miles ☐ Kilometers (kilometers will be converted to miles on the title)

I certify that the odometer reading (check one):

☒ Is the actual mileage ☐ Is the mileage in excess of odometer's mechanical limits ☐ Is not the actual mileage (Warning: Discrepancy)

Date of sale: **08/11/2026**

Sale price: \$ **18,450.00**

As owner of this vehicle, I hereby transfer all rights, title and interest to the new owner, named below. I certify that I know of no claims against the title except the lien to the new lien holder, if any. I certify that the odometer and sales information shown above is correct, and that any brand information on the previous title has been disclosed to the new owner and lien holder on form TC-814.

How to fill out TC-123 — Application for Utah Duplicate

Utah · written against TC-123 (Rev 4/26), issued under Utah Code 41-1a-518 and 41-1a-1210

The most useful two pages in Utah's whole set, and the reason a lost certificate does not stop a sale here. Part 1 asks the Division for a replacement title. Part 2, headed Assignment and Release of Interest, assigns the vehicle to a named buyer. A seller who signs both parts can hand the sheet to a Utah buyer in place of the certificate and the buyer registers on it, which is what Utah Code 41-1a-518(2) contemplates when it says a duplicate certificate need not be made where the application arrives with a proper release of interest and an application to title in the new owner's name.

This sheet is not the form. Download the blank TC-123 from the Utah State Tax Commission, Motor Vehicle Division at <https://files.tax.utah.gov/tax/forms/current/tc-123.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	Part 1, Section 1 - your name and address	Every owner the Division's record shows, spelled as the record spells them, with a mailing address where it differs. Watch out: The record is what the Division checks this against, not your driving licence. If you have moved since the title was issued, put the current address in the mailing line rather than changing the first one.
2	YOU	Part 1, Section 2 - the vehicle	Identification number, year, make and model. Watch out: If you no longer have the title to copy from, the number on the registration card or on the dashboard is the one to use - and it is worth photographing both before you write anything.
3	YOU	Part 1, Section 3 - the certification	Signature and date from every owner, under the statement that the original is lost, stolen, mutilated or illegible. Watch out: It also says the original has not been endorsed and handed to anybody who might claim under it. That sentence is the one people sign without reading and the one that matters.
4	LENDER	Part 1, Section 4 - the lien release	The recorded lender's name, address, signature and date, releasing its interest. Watch out: Leave it alone if there is no lender on the record. If there is one and it uses Utah's electronic lien programme, it clears itself and there will be nothing here to sign.
5	YOU	Part 2 - the odometer block	The reading with no tenths, the miles or kilometers tick, and one of the three certifications. Watch out: This is the disclosure. There is no certificate of title in this transaction, so if the block is empty the mileage has not been disclosed at all.
6	YOU	Part 2 - date of sale and sale price	The day possession changed hands and what was actually paid. Watch out: The price here is what the buyer's sales and use tax will be calculated on. Leaving it blank sends the Division to fair market value instead.
7	YOU	Part 2 - the second signature	Owner and co-owner signatures under the transfer sentence. Watch out: This is the signature people miss. A form signed only in Part 1 does not transfer anything, and the buyer will be turned back at the counter holding a piece of paper about your duplicate.
8	BUYER	Part 2, Section 2 - the buyer	Their name, address, signature and date, and their lender's details if they are financing it. Watch out: The buyer signs on this sheet as well - it is the acknowledgement of the mileage you certified, in the place a certificate of title would have put it.

What gets this one rejected

- Only Part 1 signed. The Division's instruction to a seller handing this to a buyer is to make sure that you have signed both Part 1 and Part 2 of the form, and a sheet with one signature is a replacement request rather than a transfer.
- Used to transfer to a buyer outside Utah. The route is written for a sale to a Utah resident who will be titling or registering the vehicle in Utah; an out-of-state title is the previous owner's problem to replace in the state that issued it.
- An altered field anywhere. Both parts carry the same warning that missing, altered, or incorrect information may result in rejected application.
- A lien holder still printed on the record with Section 4 left empty. The lender releases on this sheet, on the title itself or by letter - but one of the three has to happen.
- The odometer block left blank on a vehicle under twenty years old. Part 2 is the authorized transfer document, so it carries the disclosure the certificate would have carried.
- No bill of sale with it. The Division's recommendation is unusually firm: it is highly recommended that a bill of sale accompany the Application for Utah Duplicate Title.

☐ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
