How to fill out SUT 1 — Vehicle Price Certification (vehicle must be more than 5 years old)

A one-page rescue for the sale where nobody wrote the price down. Where a Virginia vehicle is more than five years old and the sales price on the certificate is missing or wrong, this is what stands in for a bill of sale - and it is the only form in the Virginia set that gives the seller a certification block of their own, worded separately from the purchaser's and signed separately.

This sheet is not the form. Download the blank SUT 1 from the Virginia Department of Motor Vehicles at <https://www.dmv.virginia.gov/sites/default/files/forms/sut1.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	The vehicle row	Year, make, model and body type, copied off the certificate. Watch out: The year box carries its own condition in brackets. If it is not more than five years old this is the wrong form and the counter will say so.
2	YOU	VIN, colour and sale date	The full vehicle identification number, the colour and the day the car changed hands. Watch out: Colour is asked for here and nowhere else on the tax forms. Take it from the certificate rather than describing the paint.
3	YOU	The seller's figure	The selling price, written into the blank in the middle of the printed sentence. Watch out: Read what surrounds the blank before writing in it: all accessories and attachments are included and no trade-in allowance is deducted.
4	YOU	Seller name, signature and date	Print, sign and date. That is the end of the seller's part of this form. Watch out: The name should match the one printed on the face of the certificate you assigned, not a shortened version of it.
5	BUYER	The purchaser's figure	The purchase price, in the buyer's own certification block below. Watch out: It is the same number. Two different figures on one form is the fastest way to turn a formality into an investigation.
6	BUYER	Purchaser name, signature and date	The buyer prints, signs and dates their half. Watch out: This form travels with the title application. It is not something either party keeps - the copy that matters is DMV's.

What gets this one rejected

- Using it on a vehicle five years old or newer. The subtitle is a condition, not a description, and the newer car needs the notarised affidavit instead.
- Two different figures in the two blanks. The seller's certification and the purchaser's certification are separate sentences and DMV reads both.
- A figure that quietly nets off a trade-in. The printed wording is with no trade-in allowance or any other transaction, so the number is the whole price of this vehicle.
- Filing it as a dealer. The purpose line restricts it to individuals and adds not motor vehicle dealers in brackets.
- Leaving the sale date blank. It is the only date on the form and it is what ties the certification to a particular transfer.

☒ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
