The newer car's version of the same problem, and the one that costs an appointment. Where the vehicle is five years old or less, a bill of sale is not enough on its own - DMV wants the purchase price sworn, and the instruction line says so in seven words: complete the form, have it notarized and submit it with other titling paperwork. It is one of only two forms in the whole Virginia seller's set that a notary ever touches.

This sheet is not the form. Download the blank SUT 1A from the Virginia Department of Motor Vehicles at <https://www.dmv.virginia.gov/sites/default/files/forms/sut1a.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	BUYER	The vehicle row	Year, make, model and body type, with the year box carrying its own five-year limit. Watch out: Model year, not the date it was bought. A 2021 car bought new in 2022 is still a 2021.
2	BUYER	The purchase price	The figure paid, written into the blank in the certification sentence. Watch out: Accessories and attachments are in; a trade-in allowance is not deducted. The sentence around the blank says both.
3	BUYER	Applicant name and signature	Printed name, signature and date - made in front of the notary, not at the kitchen table. Watch out: A co-signer going onto the title signs the row underneath, and has to be standing there too.
4	BUYER	The notarization block	The notary completes state, city or county, the day, month and year, the name of the person who appeared, their own registration number, commission expiry, name and signature. Watch out: Check the commission expiry before you leave. A notarisation dated after the commission ran out is worth nothing, and nobody at the counter will notice until the file is opened.

What gets this one rejected

- Signing it before you get to the notary. The whole point of the block is that the signature was made in front of somebody with a commission.
- Using it on an older car. The subtitle is a limit and the purpose paragraph repeats it - do not use this form for vehicles more than 5 years old, use a Vehicle Price Certification or a bill of sale.
- A missing commission expiry date or registration number. The notarisation block has four boxes and an incomplete one is not a notarisation.
- Expecting the seller to sign. There is no seller line. If a seller's word about the price is what is needed, that is the other form.
- Submitting it on its own. The instruction is to submit it with other titling paperwork - by itself it applies for nothing.

☐ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
