Virginia · written against VSA 59 (07/01/2017), issued under Va. Code 46.2-1602

The one form in this whole file that exists purely to protect the buyer from the seller, and the one a private seller is most likely to be prosecuted for skipping. Virginia Code 46.2-1602(A)(4) makes it unlawful for any person to sell a rebuilt vehicle without first having disclosed the fact that the vehicle is a rebuilt vehicle to the buyer. This single page is that disclosure, and both parties keep a copy of it.

This sheet is not the form. Download the blank VSA 59 from the Virginia Department of Motor Vehicles at <https://www.dmv.virginia.gov/sites/default/files/forms/vsa59.pdf> — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	YOU	The vehicle	VIN, year, make and body type, off the branded certificate. Watch out: Take them off the title rather than the car. The title is what carries the brand and the title number is asked for beside them.
2	YOU	Title number and state	The certificate number and the state that issued it. Watch out: Where the brand was carried in from another state, that is the state to name - the notice paragraph is written for exactly that case.
3	YOU	Seller name and signature	Print, sign and date - before the sale, not with the rest of the paperwork afterwards. Watch out: Keep your copy. It is the only proof that the disclosure was made first, and the statute is worded around that word.
4	BUYER	Buyer name and signature	The buyer prints, signs and dates, and takes a copy away. Watch out: A buyer who will not sign it has told you something. The form is not the argument - it is the record of a conversation that has to have happened.

What gets this one rejected

- Handing it over after the money has changed hands. The statutory wording is without first having disclosed - the disclosure comes before the sale, not with the paperwork afterwards.
- Only one copy. The instruction is that the seller and buyer must sign and each retain a copy.
- Leaving the state box empty where the brand came in from elsewhere. The notice paragraph specifically contemplates a brand carried forward from another state.
- Assuming it is DMV's job to tell the buyer. Nothing in the transfer process warns a buyer automatically; the obligation is on the person selling.
- Skipping it because the repairs were good. The definition turns on the estimated cost of repair against actual cash value, not on how the car drives now.
